Projects

Project Title – Hospital Management System

Brief description: The Online Hospital Management System in Java allows users to register, book appointments, and make payments online, providing a convenient healthcare experience. Admins can manage users, view data, and perform actions like adding or deleting users, streamlining hospital operations and improving efficiency for both patients and staff.

Extracurricular Activities

- Achieved student level credential for completing IT Essentials course (Cisco Networking Academy).

Signature
Mahim Hossain

A handwritten signature in black ink, appearing to read "Mahim". It is enclosed in a thin black rectangular border.
